George Karpodonis

Dear Mr Karpodonis!

Many thanks for your "circular letter" which we received a little while ago.

We congratulate you to having "ISUEC" founded. For your information we enclose a couple of publications which we have published. We trust you know about CUFOs, the organization founded by Dr Allen J Hynek. He has put together some very interesting results of his analysis of close range observations, which I regard as a breakthrough in UFO Research.

We have, in Project URD, done our first computer analysis of 1000 cases (compiled from the Swedish Defense Research Institute and from UFO-Sweden), with very interesting results.

I must also inform you about ICUR = the International UFO Research Committee for where I am the chairman and responsible for its secretariate.

In closing this letter, I wish you all luck in your work. Best regards

Bertil K
